

Swapnil Chandrakant Zambare

Objective

To employ myself in a progressive organization that provides scope to update my practical knowledge and skills in accordance with the latest trends and be part of the team that dynamically works towards growth of the organization.

Contact

- Phone no.:- **+91- 8657387144**
- Email: **swapnilzambare.2020@gmail.com**

Education

- B.E (Instrumentation)
- University: North Maharashtra University, Jalgaon
- College : Government College of Engineering, Jalgaon

Personal Info

- Date of Birth: 25-02-1994
- Marital status- Unmarried
- Gender: Male
- Language: English, Hindi, Marathi
- Passport: Yes

Hobbies

- Reading
- Playing Badminton
- Cycling

Experience: 5 year

1. Working as **Python developer / Data Scientist** at **SAMSUNG SDS**, Gurugram since Sept 2024 to till date.
2. Worked as **Python Data Scientist** at **Lyceum Gurukul Pvt. Ltd.** New Delhi from Jan 2021 to Sept 2024.

Technical Qualification Headlines:

Process worked with: DevOps + Agile + V- Model

System/Vertical worked with: Banking | Supply Chain | Telecom OSS

Strong Experience Areas: Python | SQL | Machine Learning | NLP | AWS | O9 Solution | IBPL Query Language

Key Skills

- | | |
|----------------------------|---|
| • Frameworks: | Django, Flask , Bootstrap. |
| • Programming Languages: | Python, SQL, HTML, CSS. |
| • Version Control: | Git, GitHub. |
| • Cloud Computing: | AWS EC2, S3, Glue, Redshift, RDS, ECS, ECR, lambda , step machine |
| • Analytic Tools: | PySpark, Pandas |
| • Databases: | My SQL, MongoDB, SSMS |
| • IDEs/ Development Tools: | PyCharm, Jupyter Nb, VSCode. |
| • Deployment Tools: | Docker, Kubernetes, AWS CodePipeline |
| • Visualization: | Grafana, Tableau, AWS Quicksight |
| • Monitoring Tools: | AWS Cloudwatch, Prometheus |
| • Issue Trackers: | JIRA tools |

Projects

Project 1

Project Name : Next Generation Supply Chain Management System Implementation
Vertical : Supply Chain
Technology & Tool: O9 Solution, Python
Roles : Python Data Scientist

Task Handled:

- Python & PySpark plugins for On Demand Action button and for procedure execution.
- R-Script Plugin development for Active/ Event driven execution.
- UI development and optimization.
- Implemented IBPL Active Rules for constraint checks, approvals & workflow automation.

Project 2

Project Name : Integrated Loan Management/Cibil ML. Pipeline
Vertical : Banking
Technology & Tool: Amazon AWS, Python, Machine Learning
Roles : Python Data Scientist - ML Engineer

Task Handled:

- Integrate the collected data into a unified database/data warehouse.
 - Data Wrangling, preprocessing, and visualization.
 - Use predictive model building like Logistic Regression, Random Forest, Decision Tree, SVM, XGBoost, GBC to increase and optimize customer experiences, revenue generation, and other business outcomes.
 - Document the entire pipeline including data sources, preprocessing steps, model development, evaluation metrics, and deployment procedures.
-

Project 3

Project Name : Stream processing and Supply chain Execution
Vertical : Supply Chain Analytics
Technology & Tool : Python, PySpark, Spark SQL, Plotly, Dash, Post Man, Microsoft Azure, Docker, ETL, ML, Statistical Analysis
Roles : Python Developer /Data Scientist

Task Handled:

- Implemented Data Exploration to analyze patterns and to select features using Python and SciPy.
 - Performed Data Enrichment jobs to deal missing value, to normalize data, and to select features.
 - Created reports and dashboards, by using Tableau 9.x, to explain and communicate data insights, significant features, models scores and performance of new recommendation system to both technical and business teams.
 - KT with the client to understand their various Data Management Systems and understanding the data, creating meta-data and data dictionary for the future data use/ data refresh of the same client.
 - Built models Machine Learning Classification Models like XG Boost, SVM, Random Forest. etc.
 - Used Pandas, Numpy, Seaborn, Scipy, Matplotlib, Scikit-learn in Python for developing various Machine Learning Algorithms.
-

Project 4

Project Name : Industrial Ethernet Switch - SCALANCE X -Siemens
Vertical : Telecom OSS Provisioning and Activation –Inventory Management
Technology & Tool : Python , Django REST , Oracle ,GIT , Rest – Web Service ,Pandas, ETL, Statistical Analysis.
Role : Python Developer

Task Handled:

- Understand the FRS document and analyze the requirement, specifications and also in client interaction during requirements specifications.
 - Involved in analysis and design of the application features, designed and developed communication between client and server using Secured Web services.
 - Developed consumer based features and applications using Python and Django.
 - Taken part in entire lifecycle of the projects including design, development, and deployment, testing and implementation and support. Improved code reuse and performance by making effective use of various design patterns
 - Documented the design solutions and created stories for client requirements.
-

Place: Gurugram
